M.DUBOY'S FRENCH BAT EXTERMINATION. Con Charles

A NEVER FAHLING REMEDY FOR THE DEA struction of Rats, Mice, Cockrusches Bedbugs,
Ants, etc. This proparation is warrated to exterminate Rats and Mice, whenever used as directed, and
to leave no affensive stench on the premises cleared
of these annoying vermin. Its use is Perfect y Safe
in any place and at all times, which is not the case
with ordinary remedies for this evil.

CAUTION—HEWARE OF COUNTERFEITS!

The extraordinary success of M. Duboy's French
Rat Exterminator has excited the cupidity of some
dishonest and irresponsible persons to counterfeit it.
To prevent this, we have, at great expanse procured
a splendid Steel Plate Wrapper, and none will be genuine without the signature of the Proprietor, E. W.
LYNDE, on the same, and the top of eyery box stamped thus.

M. DUBOY'S FRENCH RAT EXTERMINATOR.

M. DUBOY'S FRENCH RAT EXTERMINATOR. It is necessary that the above caution should a strictly observed, lest the purchaser become the vic-tim of a base fraud. Call on the Agents and get a circular gratis. All orders mu

Chicago, April 26.

The Straits Open—Buffalo Vessels at Chicago—The Indignation Meeting.

The propeller Forest Queen and steamer Globe from Buffalo arrived last night. They report plenty of ice in straits, and think vessels will not be able to pass for a week or ten down the straits of the straits of the straits of the monument was fit yesterday afternoon for the

report pleaty of feels strates, and think vessels will not be able to pass for a week or ten days.

Pursuant to a call published in the city papers for an indignation meeting against the Great Western Railway, a number of mer chants assembled in Warners Hall last evening. The chairman stated that the meeting was called for mutual expression and consultation in regard to delay of goods. It was agreed by all that the Michigan Central Railcoad was not blameable, but the fault rested entirely with the Great Western. Col. Hammond of the Michigan Central addressed the meeting, making such an explanation as the facts required, stating that the Great Western was not so much to blame as appearances would indicate; that they were not prepared to carry freight but owing to delay in southern route, and been induced to take more than they were able to carry, also that they ordered cars and engines; but orders were not filled as soon as expected. Several other gent'emen addressed the meeting, and then they adjourned.

Fighting in Mexico-Alvarez Routed.

Pighting in Mexico--Alvarez Routed.

New Onleans, April 25.
The steamer Texas arrived with dates from the city of Mexico to the 17th. An engago-ment had tal en place between Santa Anna and Alvarez. The latter routed.

It was reported that fifty-one persons re-Blaz, landing without passports, have been carried to the capital, heavily chained, among them twenty native Americans and twelve a-

dopted citizens.

The victory of Santa Anna was celebrated at the capital with great rejoicing, and other accounts say the victory is a ridiculous exag-

COLLEGE NOTICE.

SUBSCRIBERS to the College Building-Fund, will please take notice that the work on the buildings will be reseased on the first of April next. To prose-cute the matter with rigor, it is of the stasset importance that the notes and subscriptions given in aid of this enterprise be prosept paid.

The largest and most important contracts are already let; and the work is in such a state of forwardness as justifies the expectation, that a part if not all, of the buildings will be ready for use the ensuing winter. Many subscribers have met their payments with a promptness that gives most gratifying assurance that their interest is the enterprise has not abated. It is confidently hoped that none at present in arrears, will delay making payment, when it is understood that by so doing, they run the risk of embarrassing and retarding a work so desirable in itself, and so well calculated to promote the best interests of the estire Consty. It is a great and good work. Couragegenerous friends! Those who have your confidence and co-operation have carried on the work thus far, are still acting in good faith, trusting that in due time, "the top-stone will be brought forthwith rejoicing."

## TENHEND TO

THE above Expectarian, prepared by an experier col Physician and Chemist, has now become a standard Preparation, and isoffered for the COMPLETE CURE of those diseases of the THROAT, and LUNGS, which, finedecied, usually terminate fatality is CONSUMPTION. It contains no Option, Caloud, or any Minerol whatever, but is composed entirely of those Rosts, Herbs, and Proctable substances which have a specific influence open the Langs and their connected organs. Its immediate effect is to allay all irritation, and gently remove the phlegm and other morbid secretions from the throat and Air-passages, thus relieving the Cough, by subduing the influnction and other causes which give rise to it. It is approved of and recommended by Physicians of the inglest stansing, and may be given with perfect safety to the youngest child or the most delicate female.

Syracuse.

Thad a severe cold and was cured by the Petroleum, and gave it to a veral others with like success, and an old lady who had bruised her shoulder by a fall, and atrained her arm and shoulder, was cured by rubbing the Petroleum on the parts affected. I also had an attack of the ELEM FILE, and by the application of Petroleum was cured in a short time.

upon which it is chained that the chains produce their marvelons cures, are, first; that all nervous diseases are attended and produced by a sufficient supply of nervous fluid, an agent that resembles closely electricine, or electro-magnetism; and 2d, that the electro magnetic chains, by being worm over and upon the part and organ diseased, furnish to the exhausted nervous system, by its powerful stimulating effects, the nervous fluid which is required to produce a healthy action through the entire system. No disgusing nostrum is allowed to be taken while using the chains, but a rigid observance of the general laws of health is required. Brisk friction upon the part diseased adds much to the effect of the chains, by increasing their power:
